

Cricklade Bloomers

Working to Make Cricklade a Better Place

News and Update

Good Luck Cricklade.

The Town looks wonderful your efforts to brighten your homes streets and businesses with beautiful flowers are very noticeable.

Can Cricklade win Gold and be presented with a Royal Horticultural Society National Award?

YES with your help we can.

Look out for weeds and pull them up. Sweep up in front of your house & keep your pots and planters fed, watered and dead head regularly to keep them flowering into the autumn.

**The Town will be judged for the SOUTH WEST in BLOOM regional competition
On Wednesday 21st JULY**

**RHS NATIONAL BRITAIN in BLOOM Judges will visit Cricklade
On Monday 2nd August**

The judging route will include most areas in the Town, but did you know that children from the pre-schools, infants and junior school have been busy all year in their school gardens? The judges will meet some of those involved in these projects. The Fire Cadets, Scouts and Guides too have been looking after the Town, clearing out the Thames, planting up the Towns planters and helping with litter picks. We also have a group of youngsters who look after some of the flower borders at the Leisure Centre and at the Bank garden there are several young people who regularly come and help at our Saturday work parties. The judges will be shown our green spaces, churches and the numerous florally decorated pubs and businesses along the High St.

Working Parties in July

During July come and help the Bloomers team with keeping all the flower displays in top condition, clearing weeds from the streets and keeping the town litter free. Please come along to one of our working parties, we meet each Wednesday and Saturdays at 9.30 am onwards in the Bank garden at the back of Ockwells behind Lloyds Bank; just turn up no experience necessary.
